Comments:

Please do not limit access for mountain biking. I am a native to Montana and feel very strongly that limiting access deprives human relationship/connection with nature. It is an important access option for many mountain biking/ recreation enthusiasts. I feel it is unnecessary to close trails that are currently accessible and would greatly and negatively impact our rights and freedoms to enjoy access into deep mountain areas. I spend nearly everyday on our trails in every season, through varies means. I ski, bike and hike and feel that it is important to our well being to be able to do so. I live in Montana because of our access and feel very strongly that we need to keep it that way. Mountain biking is not a crime, it is a favorite pastime.
