Comments:

Now more than ever humans need to reconnect with nature, and this is happening during a time nature is being more threatened.

It is critical to create and implement policies to protect our planet. I enjoy all Montana parks and wildlife and hope to for decades to come! Thank you for the work you do. In the past two years I have visited Yellowstone, Gallatin, Bob Marshall, Glacier, and these experiences have been life changing.

Heather Barnes,  
Chicago, IL
