Comments:

Please stop creating "wilderness" areas.. I believe that public land is best valued as communities to allow all user groups.. snowmobilers, backcountry skiers, dirt bikers, paragliders, hikers, and bikers, ebikes too.. why limit who can recreate in our own land.. no single user group should be overrepresented. As the land is now, it allows more users to enjoy it. Why change that.. Its very frustrating that some groups are continuously getting there way. Wilderness just limits what can be done on the land and that is unfair... closing off more of our land doesn't suit the economy or many, many, other recreationalists like me..
