Dear Custer Gallatin National Forest:

The values of the CGNF are made clear in your draft forest Plan and of all the alternatives, ALT D is the best for so many reasons:

It recommends wilderness designation for all the roadless lands of the Gallatin Range including the biologically important hot spot of the Buffalo Horn and Porcupine drainages. It possesses incredible wildlife values. Protect the wilderness values of the Crazy Mtns and the recommended wilderness in the Lionhead. Protect existing recommended wilderness surrounding the Absaroka Beartooths and include Dome Mt., Chico Peak, emigrant Peak, West Woodbine, East Rosebud to Stillwater and Red Lodge Creek. Recommend for Wilderness areas in the Pryors and: Manage rec. wilderness areas just likedesignated wilderness: Do not allow mt biking or motorized use!
