Comments:

I'm a supporter of wilderness recommendations under Alternative D of the Revised Draft Forest Plan, but this needs to be improved by adding the entire 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness in the final forest plan.

Important as well:

All motorized and mechanized uses has to be banned, in fact all activities not consistent with wilderness protection! Congress will act further on the wilderness recommendations.

This draft plan is neglecting the Absaroka-Beartooth and Lee Metcalf Wildernesses. The current wilderness management plans allows destructively large groups of up to 25 head of stock (horses and mules) and 15 people in most areas! This has to be prohibited, this is too much! Please reduce both.

Thank you
