Comments:

To Whom May It Concern;

I'm writing in hopes that these following items maybe thought of and addressed in the up coming plan.

1) Wildlife

Have there been any research on the population of wildlife in the area?

ie: grizzly bear, lynx, wolf, elk moose, mountain goat, bighorn sheep.

What is the impact on American bison?

I think that American bison should be allowed to roam has before Europeans took over.

I would like you to think of restoring connectivity and conserve viability and diversity of native bighorn sheep, American bison.

How will the plan impact the source of waters that support Yellowstone cutthroat trout?

What about sacred species?

2) Cultural/treaty rights

Will you safe guard treaty rights now and in the future?

Sacred sties?

3) I am not a fan of mining at all. I would like to see that removed on the plan.

Thank-you

Deanna Doull
