Comments:

I am writing in favor of alternate ID. The entire 230,000 acres must be added to this site to help save everything. All motorized and mechanical vehicles should be prohibited due to the damage they create. People use this area carelessly. Large groups of horses, mules, and people are destructive to the area and a cap on the amount allowed in is needed. If we stop stocking the fish in the area, we won't get as many people coming. Currently, the problem of human and animal excrement has not been addressed. These areas of nature's beauty must be saved for future generations.
