Comments:

We moved her 20 years ago and our first hike was to Emerald Lake. A motor bike was racing around the lake and it's awful noise was disturbing all the people who were out enjoying the lake and it's environs. I called the forest service to ask why this was allowed in a wilderness area. She said, "Be careful what you call a wilderness". Well, what ever it was labeled, it was a beautiful spot and the one person disturbing the peace and quiet for everyone else did not belong there. I hope that what ever option is decided upon will make sure that problem is taken care of. I would vote for D, and would be less happy with a compromise plan, but would go along with it if need be.
