Comments:

I support the Gallatin Forest Partnership Agreement and would like to see it adopted into the final plan! It is important we maintain our public land to the best of our ability, with regards to taking care of the natural environment, flora and fauna. I think it is important to cut back on motorized vehicle access wherever possible, to keep our lands as they were. I support designating the Recreation Emphasis Areas identified in Alternative E, but ask that the Bridger Winter Recreation Emphasis Area be expanded north to Fairy Lake. The Forest Service should monitor wildlife populations across the forest, particularly in areas with high human use, and adapt recreation management as necessary to protect wildlife.

Thank you for the option of us to comment, it is so important to hear from the locals who utilize and care about this land.
