Forest Plan Revision Team

PO Box 130

Bozeman, MT 59718

Dear Revision Team,

The name is Paradise Valley. The Yellowstone River runs through this valley. The valley, the mountains and river is such a beautiful location in our country. Destroying it through mining or industrialization would be a disaster for both the state of Montana and our country. People save money for the future . However countries save beautiful , natural, geographic locations. This area of Montana must be preserved for the present and future citizens of Montana and the U.S. The short term gains from development or mining will be dwarfed by retaining and preserving Paradise Valley. Developers have money to throw at politicians but the residents, and voters of Montana benefit more from living, fishing, skiing, hunting and hiking in and near YNP.

Jack Hennessey

Respectfully,

Mr. Jack Hennessey
