Dear Custer Gallatin National Forest:

Dear sir/Madam; I'm writing to ask you to include the following in you management plan for the Custer Gallatin Nat'l Forest: Give maximum wilderness protection for all areas that have existing wilderness recommendation in the Absaroka Beartooth region. Also, recommend wilderness status for Lost Water, Big Pryor, Punch Bowl and Bear Canyon in the Pryors. Protect and maintain the wilderness values of the Crazy Mountain area, one of the most spectacular and magnificent ranges in the nation. Include in your plan the principles of the Gallatin Forest Partnership Agreement. Finally, keep wilderness values intact and do not allow biking or motorized use in recommended wilderness areas.
