Comments:

Please be mindful of the effect of opening up these areas to human use. These areas are needed to protect the infrastructure of Yellowstone National Park. They act as a buffer to the park and allow the natural ecosystem to up hold those systems in the park.

Please understand your responsibility to the Park and those areas surrounding it. Humans as you know are never satisfied and will continue to TAKE, TAKE until there is nothing Natural left on the planet. It's your responsibility to keep this from happening!!!!!!
