Comments:

I believe that our great country needs to do more to support and strengthen our American bison population on the National Forest. Therefore, I strongly urge you to strengthen Alternative D by setting strong standards to achieve the "desired condition" of viable, self-sustaining populations of American bison on the National Forest. Some of the standards that I urge you to adopt include:

- \* listing American bison as a species of conservation concern;
- \* reintroducing fire as a natural force in expanding bison habitat;
- \* removing barriers to bison migration;
- \* securing bison habitat connectivity;
- \* all other measures that will support and strengthen our American bison population on the National Forest.

Thank you for taking the time to read my Comment.

Paula Katz
