Comments:

I would like to see ALL motorized uses of the wilderness areas prohibited. I prefer wilderness Alternative D in order to protect the greatest amount of these pristine areas for future generations. The Forest Service should reduce group stock size limits to 6 and people group limits to 12 or less. Otherwise, large parties of people and stock completely overwhelm the wilderness experience of other travelers. I hope you will include as much of the wild areas in the forest as is possible. Montana has a valuable resource in these wild lands. Let's protect them carefully now.

Thank you for your time and attention.

Bob (Robert) Kvaas
