

Table of Contents

Introduction:	3
Wilderness:	5
Inventoried Roadless Areas:	6
Recommended Wilderness Areas:	8
Backcountry Areas: A False Equivalency	9
The Gallatin Range:	10
The Heart of the HPBH WSA:	11
The Pryor Mountains:	14
The Bridger and Crazy Mountains:	16
Tribal Interests of the Crazy Mountains:	20
Wildlife:	21
Species of Conservation Concern:	23
Wildlife Connectivity:	31
The Language of “key linkage areas”:	31
The 2012 Planning Rule and the DRFP and DEIS:	34
The Need to Protect Key Linkage Areas:	34
The I-90 Corridor and Other Highways:	39
Beaver:	42
Steps of Beaver Restoration:	43
The Benefits of Restoration:	44
The DEIS:	47
Bison:	48
The Interagency Bison Management Plan:	49
The Population:	51
The Importance of Genetic Diversity:	52
The Genetics warrant Species of Conservation Concern:	54
Tribal Considerations for Species of Conservation Concern:	55
The IBMP, State laws and Species of Conservation Concern:	58
Bison on the Larger Landscape:	60
Grizzly Bear:	62
Grizzly Bear Connectivity:	64
Alternative Cohesion pertaining to Grizzly Bear:	65
Grizzly bear, Recreation and Wilderness:	66
Bighorn Sheep:	67
Disease on the Custer-Gallatin:	69
Population on the Custer-Gallatin:	72
The Need for Large Landscapes:	76
Effects of the Revised Plan Alternatives:	76
The Need for Assessment:	81
Bighorn Sheep: Species of Conservation Concern	84
Moose:	85
Moose Populations, Densities and Threats:	86

Moose Populations in Montana:	86
Population: Where do we go from here?	90
The Fragility of Moose:	92
Disease:	92
Moose as a Species of Conservation Concern:	95
Wolverine:	95
Wolverine: Their Habitat, Population and Reproductivity	96
Wolverine on the Custer Gallatin and Connectivity:	97
Threat of Climate Change:	99
Threat of human conflict:	99
The Status of Wolverine: Species of Conservation Concern	102
Climate Change:	104
Climate change and the 2012 Planning Rule:	108
Fire and Fuels:	109
The Nature of those Catastrophic Wildfires:	109
The Wildland Urban Interface (WUI):	111
The Costs of Fire Prevention and Protection:	113
The DEIS and the DRFP:	115
Alternative Solutions:	116
Forestry and Forest Health:	121
Carbon Storage and Sequestration:	121
Forested Vegetation Treatments:	126
Old Growth Forests:	128
Timber Harvest:	131
Sustainability?	133
Recreation:	136
Soils and Vegetation:	138
Recreation and Wildlife:	140
Recreation and Grizzly Bears:	143
General Recreation:	144
Trails and Accessibility	145
Recreation Settings Recreation Opportunity Spectrum:	147
Airfields, Aircraft Landing Strips:	149
The Watershed:	150
The Current Condition:	151
The DRFP and Suggested Objectives:	152
Water and Climate Change in Montana:	153
How do we Condition the Watershed to fight Climate Change?	155
How has Multiple Use Affected the Watershed?	156
Conclusions:	160
