Comments:

I support the Alternative D of the Revised Draft Forest Plan, provided they must be improved by adding the entire 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness in the final forest plan. The following points also expand on the importance for the wild Gallatin Range: The plan should prohibit all motorized and mechanized uses, and any other activities not consistent with wilderness protection. The plan must address the issue of human and pack animal feces contamination of lakes and streams on the Beartooth Plateau in the Absaroka-Beartooth Wilderness. The draft plan has little direction for administering the Absaroka-Beartooth and Lee Metcalf Wildernesses. It allows too many head of stock and too many people. The group sizes should be reduced.
