Comments:

Please be alert to managing the impact on our magnificent forests. The number of invading people and animals versus the number of native animals must be considered, including all of their impact on the land, the waste left behind and all else. Please consider closing vacant grazing allotments to give the land time to repair. All motorized and mechanized uses are damaging to Wilderness and must be avoided. We only get a few more chances to protect the planet, please be observant and do the right thing for the Custer Gallatin Forest. I support Alternative D of the Revised Draft Forest Plan IF 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness are added.
