Comments:

Hi! My name is Caitlin Rex and I am a wilderness educator and an avid outdoors woman. The thing that is most important to me is the promotion of existing and new wilderness areas where mechanized vehicle are not present. There aren't many places where people can have quiet. Uninterrupted space in nature. I value this also for wildlife habitat and larger ecosystem preservation. I mostly hike, backpack and backcountry ski on the NF land. I also think other user groups: climbers, ATV, hunters etc should have space designated that reflect their wants and needs. Thanks for all your hard work on this plan.

Best,

Catlin
