Comments:

Please keep all land open to the public with shared use. Existing Wilderness is great no need for more of it. There is no need for more RWA either. I am a 4th generation Montananan and i have not seen any improvement to Forest Management from making more Wilderness. In fact all i have noticed is more and more public areas becoming less accessible to the public. Good habitat and preservation is important. Right now i think we have accomplished that fairly well. Please stand by the original Forest Service motto "Land of many uses" not Land of who has the politicians on their payroll. Thank you
