Comments:

I'm writing in support of Alternative D in the revised draft forest plan, but this Alternative needs to be improved by adding the entire 230,000 roadless acres in the Gallatin range to keep this important ecosystem intact. There is no place for motorized recreation in this very special wild area, and that has to happen somewhere else. After this area becomes wilderness and in the existing Absaroka-Beartooth Wilderness, where I've backpacked, as well as in the Lee Metcalf Wilderness group size needs to be limited to 12 people and 8 head of stock to keep impacts low. There should also be no fish stocking, either. Thanks.
