Comments:

I support Alternative D of the Revised Draft Forest Plan. This Alternative can be improved by adding the 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness in the final forest plan.

The Forest Service should reduce group size limits to protect all Wildernesses in the forest from harm.

The forest plan should put an end to ecologically destructive fish stocking in naturally fishless wilderness lakes.

All efforts must be made to address the issue of feces contamination of lakes and streams on the Beartooth Plateau in the Absaroka-Beartooth Wilderness.
