Comments:

I am writing as a wilderness advocate and hiker for the last twenty years, for the implementation of the Gallatin Forest Partnership Agreement. I have been on the top of Emigrant Peak, the top of Mt Ellis in Bear Canyon, and swam in several of the frigid waters/lakes in the Crazies, hiking many of the spectacular trails and discovering a flower like Sky Pilot and none of my access via mechanical means, just following one foot after the other, anxious to preserve wilderness for the wildness humans need to feel fully humane and for the protection of plants and animals, I recommend Wilderness that is not considered designated also be protected for only foot and horse travel. Please keep Montana wild. There is no going back once it is transmogrified into what it is not. Thank You
