To whom it may concern,

I am a visitor to Bozeman and I came here for the recreation. The accessibility to world class backcountry skiing is the reason I am here supporting the economy.

Most important to me is being able to recreate in places without motorized vehicles. My favorite place here is the Hyalite trailhead which is essential in its recreation access to the identity of Bozeman.

I also feel strongly about making the Crazy Mtns backcountry access because I am concerned that the inholdings of private property might decrease accessibility.
